RAM DESIGN
MAKE IT MATTER

DIGITAL REPRSENTATION FOR YOUR BUISNESS

ABOUT RAM DESIGN

We are a young company that specializes in web development and online advertising. Our team consists of designers, copywriters and developers. Our mission is to provide our clients with a complete online experience for the needs of their projects.

That may include the creation of a website, online store or a landing page, real estate platforms as well as digital advertising in social media. Our end goal is to provide all the necessary digital services a company may need, all under one roof.

WHAT CAN WE DO FOR YOU?

FOR STARTERS

Websites, landing pages, real estate software, listing websites and online shops – we've done it all. That experience allows us to provide you with a high-quality IT product that fits your project – no matter how big or small.

TAILOR MADE

Forget about silly templates and amateur looking websites. Our team makes sure you get a modern and responsive site that fits your needs. You get to have your project made the way you like it and want it. The options for customization are endless and every project is tailor made to your exact specification. We also SEO optimize every project to make sure that your clients can find you.

SUPER EASY TO USE AND MAINTAIN

Our websites are designed in a way that is easy to use and maintain. You can modify with ease your information, images, add and edit text and pages, mail information, newsletters and everything else you can think about. Should you have a problem (which we doubt), our team is always there to help you.

BRANDING AND ADVERTISING

Having a strong brand is more important than ever. That's why we have a team that works 24/7 in order to present your project online in the best light possible. We create our own original content and copywriting in order to make powerful social media campaigns that can catapult your business to the next level. We use all the major social medias to our advantage, as well as the Google suite of products.

SOME OF OUR RECENT WORK

INTEGRA

PREGO разработи нова модулна система за обзавеждане на дневната зона - модел INTEGRA. Предлагаме ви готови комбинации, подходящи за различните помещения, както и възможността да проектирате ваша индивидуална композиция, според вашите предпочитания. Моделът се изработва с цветовете, които се предлагат за кухненско обзавеждане PREGO, и предлага цялостни решения за всекидневната зона.
