

RAM DESIGN
MAKE IT MATTER

MANAGE YOUR LISTINGS WITH EASE

ABOUT RAM DESIGN

We are a young company that specializes in web development and online advertising. Our team consists of designers, copywriters and developers. Our mission is to provide our clients with a complete online experience for the needs of their projects.

That may include the creation of a website, online store or a landing page, real estate platforms as well as digital advertising in social media. Our end goal is to provide all the necessary digital services a company may need, all under one roof.

WHY CHOOSE RAM ESTATE?

MANAGE EVERYTHING

RAM ESTATE allows you to list and manage all of your properties, brokers and offers. You can use it internally for your company, or make it public to your customers – the choice is yours.

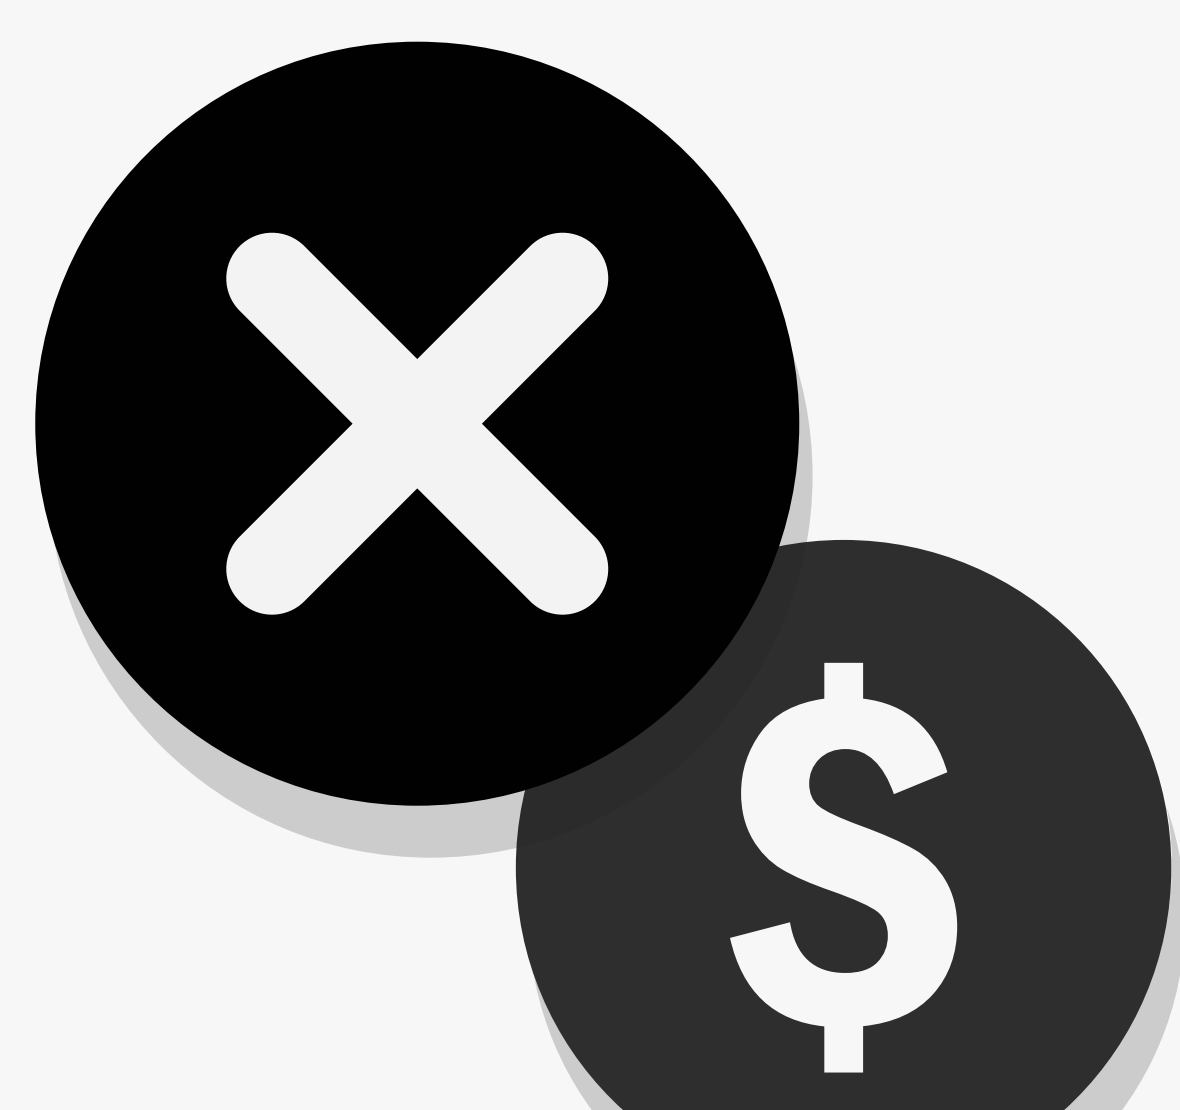

ENDLESS CUSTOMIZATION

Forget about silly templates and amateur looking platforms. Our team makes sure you get a modern and responsive site that fits your needs. You get to have your platform made the way you like it and want it. The options for customization are endless and every project is tailor made to your exact specification. We also SEO optimize every project to make sure that your clients can find you.

SUPER EASY TO USE AND MAINTAIN

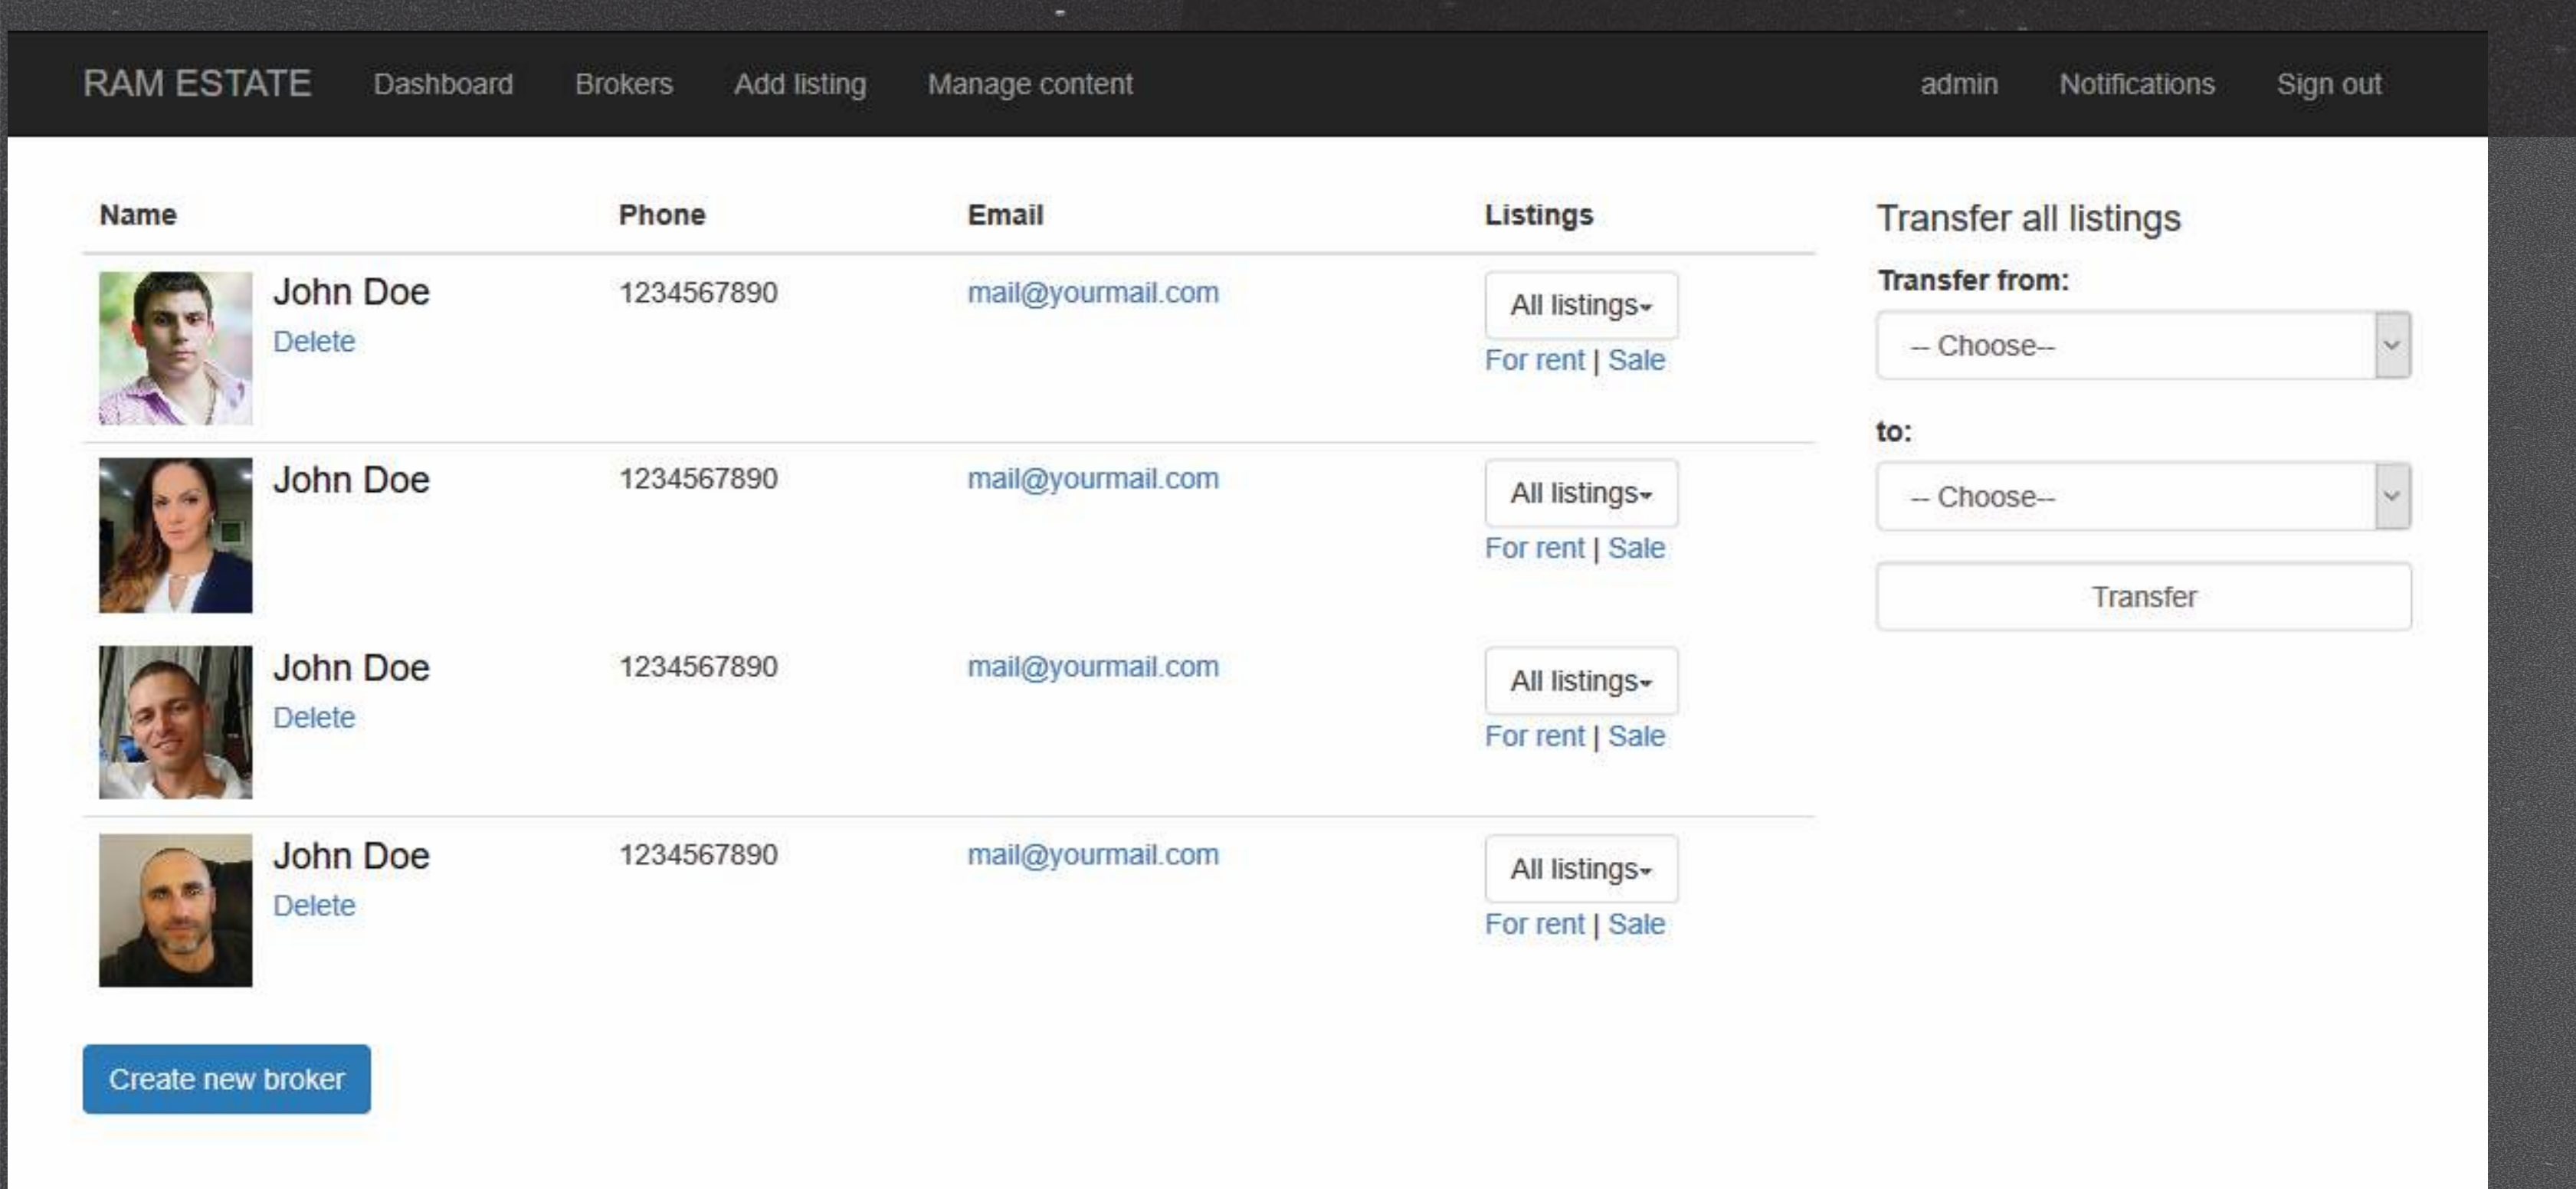

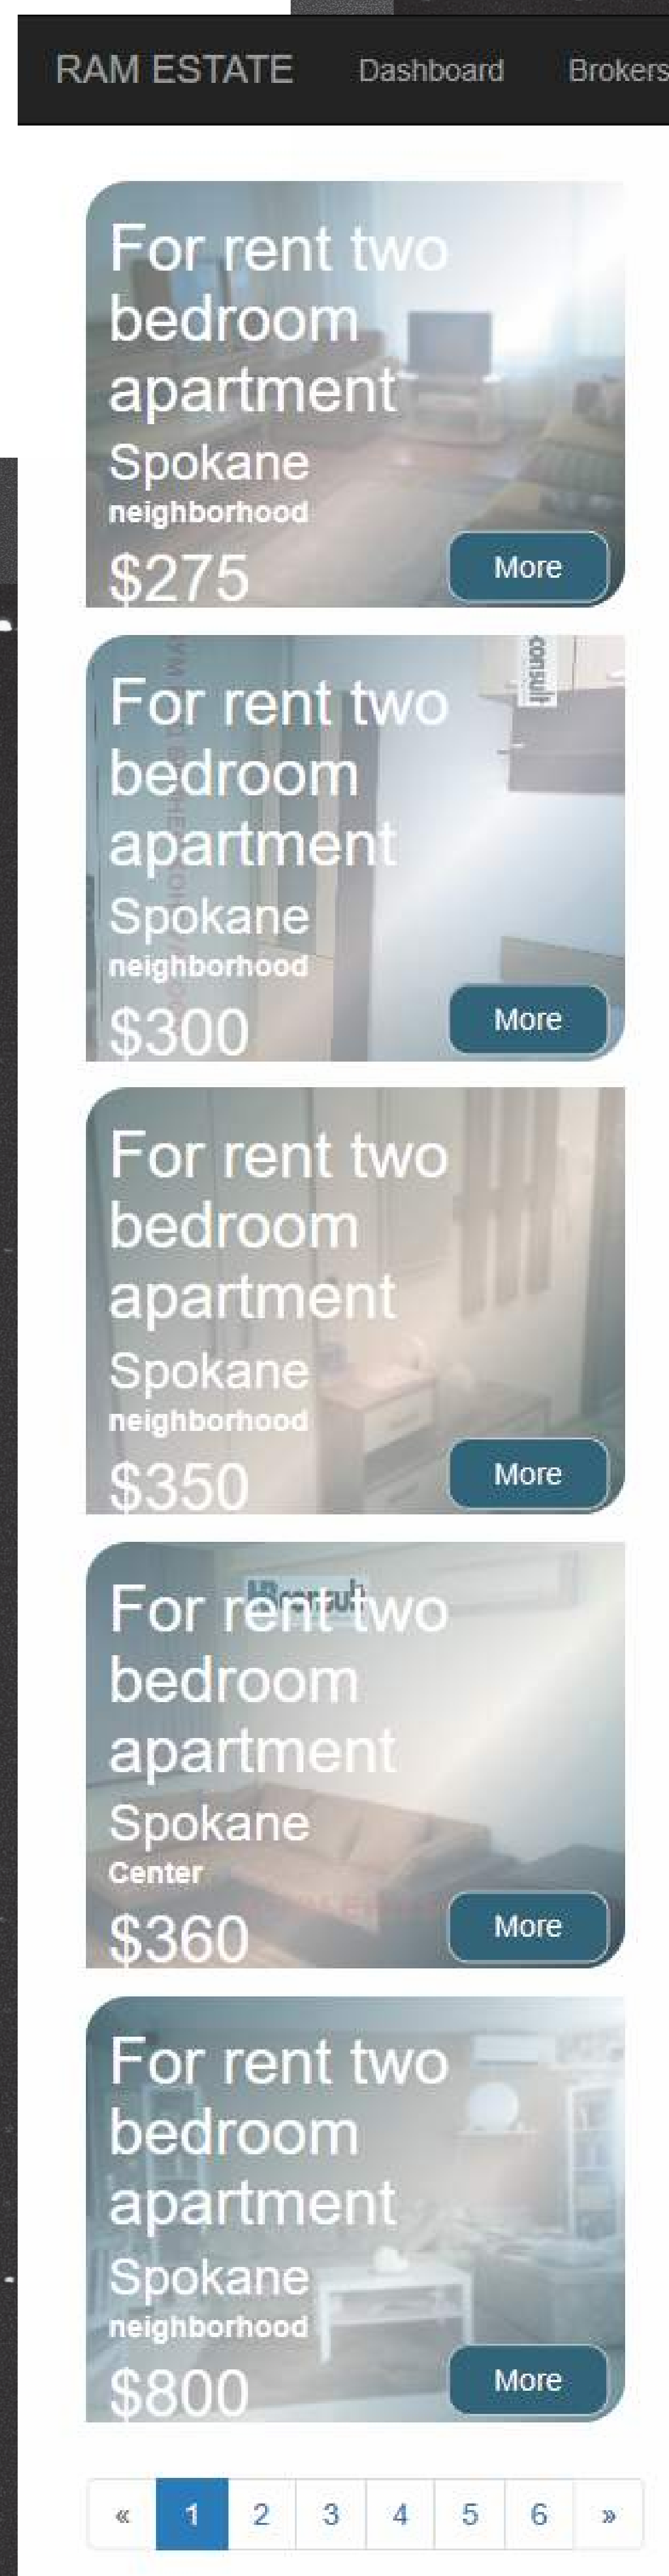

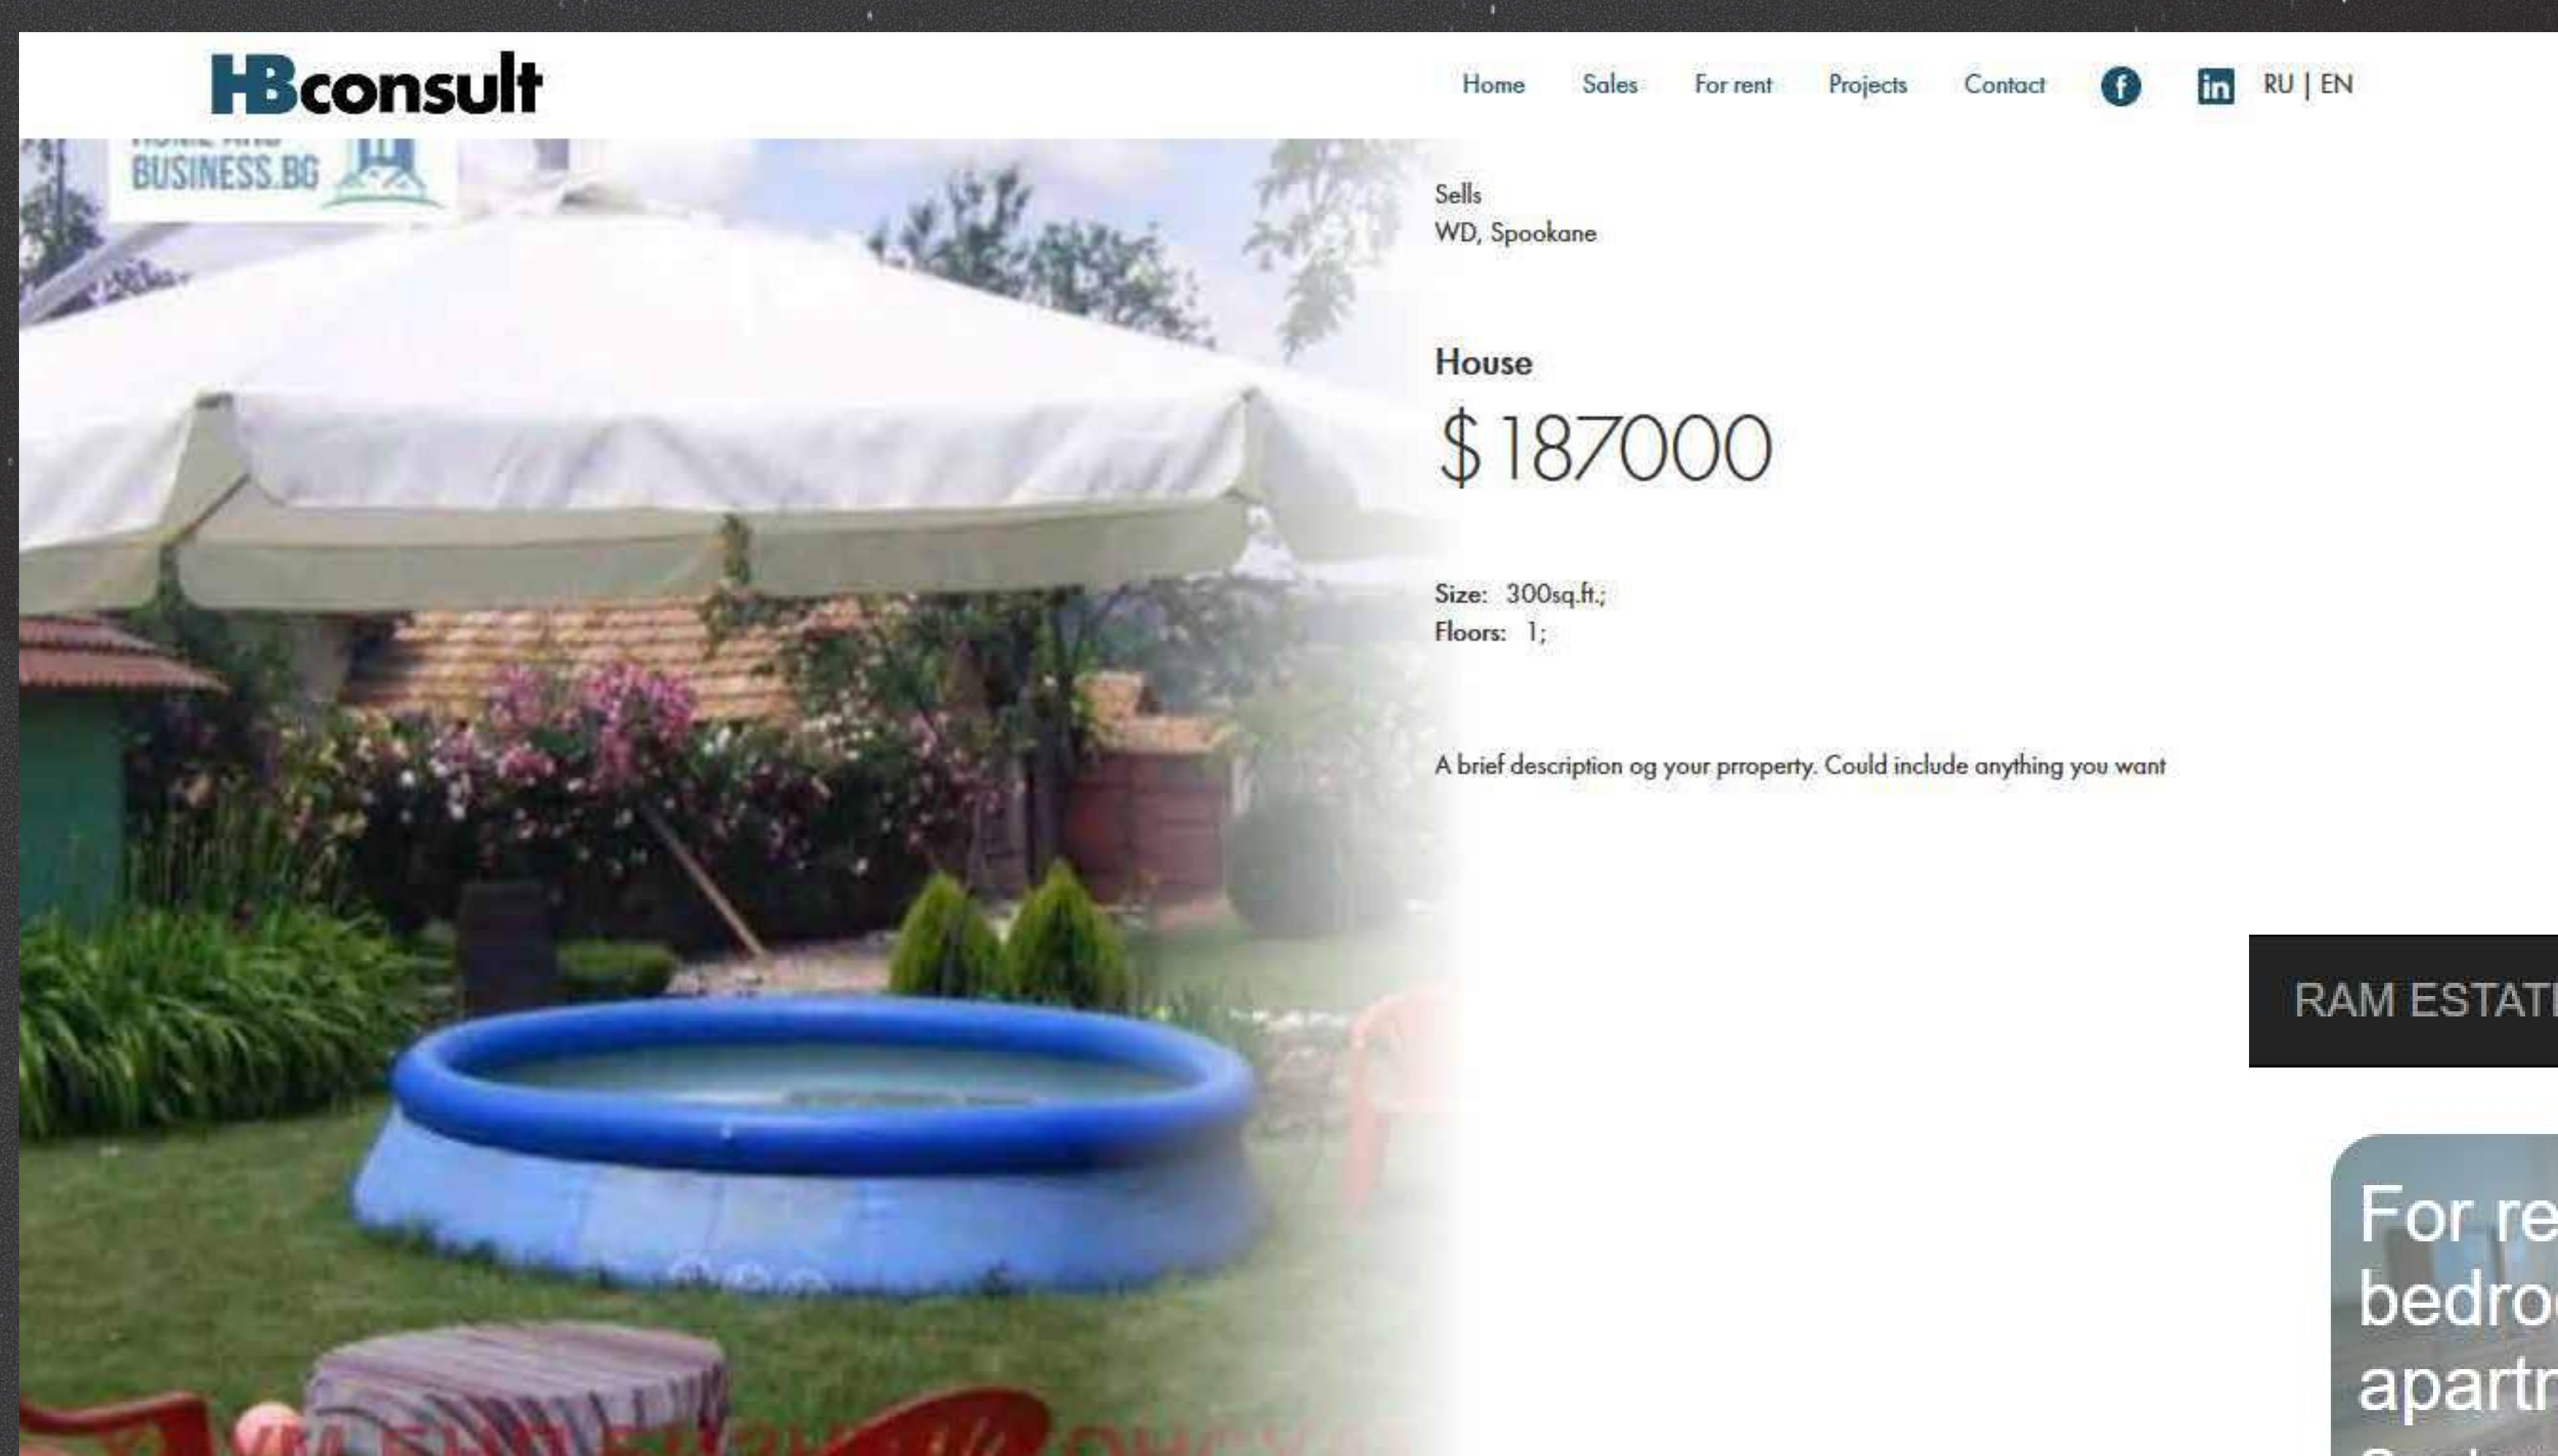

RAM ESTATE is designed in a way that is easy to use and maintain. You can modify with ease your listings, real estate info and specs, add and edit broker information and positions, mail information, newsletters and everything else you can think about. Should you have a problem (which we doubt), our team is always there to help you.

WE NEVER CHARGE YOU

That's right. We don't have any hidden fees. What you have on your platform is yours to keep. We also don't charge a monthly subscription fee – once you have bought RAM ESTATE, it is yours to keep.

TAKE A LOOK

LET'S MAKE IT HAPPEN

It will be our pleasure to work with you and make your dream real estate website a reality. Let's schedule a meeting and discuss your project in greater detail.
